

TOWN OF WESTFORD AND HAWKEYE GOVERNMENT SOLUTIONS COLLABORATION (FBGov) ANNOUNCES LAUNCH OF TOTALMOBILE PILOT PROGRAM

Boston, MA, Monday, January 18, 2010– TotalMobile Inc., a leading industry developer of mobile software applications, announced today their United States operations is now providing a Proof of Concept “Pilot” Program with the Town of Westford, Ma., and Hawkeye Government Solutions.

The Town of Westford has already identified and targeted the implementation of TotalMobile solutions across various departments including Fire Safety and Inspection, Public Safety, Building Inspections, Incident Capture, Public Works, Parking and Community Services.

TotalMobile estimates significant improvements in the delivery of constituent services, cost savings and improved efficiencies. “I am excited and pleased to welcome TotalMobile to the Town of Westford, Ma as its products will allow Massachusetts cities and towns like Westford to run more efficiently” said Chris McClure, IT Director, Town of Westford.

We see major opportunities in the United States, building on our success in the Town of Westford. Westford is an ideal location for us. Westford has a great forward thinking culture with an ideal model of a Public-Private Government Collaboration with Hawkeye Government Solutions, and a wealth of IT skills with excellent transport links, which will allow us to serve the whole of New England,” said Kevin Mulvey, President, TotalMobile Inc.

About Hawkeye Government Solutions:

Hawkeye Government Solutions is a software development and services organization addressing a variety of municipal land management applications. Late last year Hawkeye finalized a contract creating a public private collaboration with the Town of Westford, Massachusetts. Whereby, the Town created a suite of innovative land management software for permitting, licensing, zoning, conservation, board of health and complaint tracking. Our team markets and provides software support services for this solution known as FBGov (For and By Government). We also offer a document imaging and retrieval solutions, [Hawkeye ImageView](#). Now, a municipality can have a working document imaging solution for a fraction of the cost and be totally integrated to our Collaborative FBGov software. Our goal is creating a community of municipalities working together in the development of quality technologies, software and services..

About TotalMobile, Inc:

TotalMobile Inc. is an Enterprise Mobile Working solution designed for any business or organization with people who spend time working outside the office. TotalMobile can revolutionize the way you work, increase revenue, boost profits and improve efficiency. TotalMobile offers a wide range of software applications specifically designed to run on Window mobile devices and which deliver significant efficiency savings while improving customer service. The applications are aimed at state and local municipalities, to include and not limited to the Educational, Transportation, Health, and Public safety organizations.
